

CLEANS • PRESERVES • EXTENDS

## THE FUEL PURIFIER 50

### PRODUCT NUMBER:

TFP 50

### PRODUCT DESCRIPTION:

The fuel purifier is a one-step unit that removes up to 99.8% of free water and up to 95% of other heavy contaminants that are found in diesel fuel. Even today's "clean" diesel fuel will easily become contaminated during transportation and storage. Unlike many other products on the market, the fuel purifier performs this function without the use of a replaceable, changeable, or cleanable filter element or cartridge. By removing contamination immediately before the fuel enters the engine's filter system, you can keep your fuel clean, preserve fuel quality, and extend the life of your equipment.

The TFP 50 is designed for small to midsize marine, automotive, and construction equipment. This unit is fully baffled and provides excellent protection for both gas and diesel off-road, sport and marine applications.

### PRODUCT FEATURES:

<b>Product</b>	The Fuel Purifier
<b>Model</b>	TFP 50
<b>Nominal Flow</b>	0.5 GPM (1.9 L/min)
<b>In &amp; Out Couplings</b>	3/8" NPT
<b>Top Port</b>	1/2" NPT
<b>Sensor Port</b>	1/2" – 20 Straight Thread
<b>Heater Port</b>	1/2" NPT
<b>Drain Port</b>	1/2" NPT
<b>Drain Valve</b>	1/2" M-F Brass Valve
<b>Height</b>	8" (204.2 mm)
<b>Width</b>	3" (76 mm)
<b>Gross Weight</b>	4 lbs. (incl. mfg. hardware)
<b>Sump Capacity</b>	4 oz.
<b>Finish</b>	Polyester Black Powder Coat – 35 to 40 gloss
<b>Options</b>	Water Sensor Kit Heater Element
